Much Delighted with what webnexs supported for Tasteclub.

★★★★★ Reviewed 11 months ago by [DrAhmed Balkis](#)

Role: CEO at tasteclub966.com

I strongly recommend webnexs and team for Mobile App Development in IOS and Android. They are much capable and have delivered the project on time with zero lag in anything that we asked them to deliver. It was very much the version we thought to deploy in the market. We earlier had a vendor where we had a lot of deviations and we have to scrap the vendor and come to webnexs for our requirement. Our requirement was met with perfection. No stones left unturned to meet our requirement. I have also worked with webnexs for Digital Marketing. My Traffic was only 800 visits per day and I had a very poor checkout. Their skills helped our business to improve a lot in a vast segment. We did Email Marketing, Search Engine Marketing, Display Marketing, Youtube Marketing and it was awesome with them. Their dedication knew no bounds. We improved to 5000 hits per day with average time on site to 4+ minutes and bounce rate to 40%. Overall, I am very keen and interested in mentioning that their skills improved our revenue and popularity in the market. We did a lot and we have improved a lot. Webnexs rocked. I recommend them again here for Digital Marketing for Enterprise Businesses.

What they should improve on?

Not to say any specific, but overall they are a very good team.
