## Webnexs - Masters of building Digital Presences for your business

★★★★★ Reviewed 4 months ago by [Sanjay Narayanan](#)

Role: Lead - Vendor Success Program at Amazon

A couple of months before, I decided to start a business but had no idea where to start. Upon much thought and consideration of our current technology, I decided to start with a website. I have created and made many websites on my own, this time I decided I wanted to invest in a professional service. I scanned the web, researched sites and came upon a pretty impressive site, that moved me, as I scrolled through the pages, I came across the creator, Webnexs. To me, creating and building a website can be so stressful, but with Webnexs, it never was. Upon contacting them initially over the phone, I had a face to face meet at my work place with Mr. Bright Livingstone & Mr. Mahesh to evaluate their capabilities in building an online store. The professionalism and individualism of the customer service I received from Webnexs is unparalleled. To see that this web design company was able to create my vision on the web was incredible as they did not leave out any details and collaborated with me through the process to assure that I was completely satisfied. In summation, the website turned out, just as I desired it to be. It was a fruitful relationship with Webnexs and I would recommend them to be the masters of building Digital presences for your business.
